Justification for Course Change:*

There is an error on the pre-requisites. 714L is not a prerequisite for this course. Consequently, I am inundated with emails from recently admitted students who can't register for this required course. This is confusing and frustrating for our students and for me. There is absolutely no reason to require 714L as a pre-req for 771L. Instead, the only pre-req should be admission into the Master of Architecture program. This isn't actually changing our curriculum--it's changing an error in the pre-req requirements.

Run an Impact Report by clicking  in the top left corner and answer below according to the results. Copy and paste the results below:
