Please see reply below.

Routing this back to you because we have questions upon implementation:

Do you want us to build this course with 3 iterations: A,B,C for the three departments: (A=HPDS, B=KNS, C= DPT)?

This proposal is listed under IDGP IHS and does not request the three departments. If there is a request for the division, it would be under another proposal.

Is it to be only one course, which academic organization (i.e. department) should this course belong to in MyUNLV? and what departmental classification in Acalog?
It is an IHS college-wide level course. Thanks!

There does not appear to be a department vote. Have faculty discussed this? Since it is proposed as an elective in the IHS doctoral program, it seems as though the IHS Graduate Faculty should be the group that serves as the "department" and discusses the proposal.

Per IDGP-IHS bylaws, the IHS Executive Governing Committee (EGC) is responsible for curricular matters and course development. This proposal has not been presented to the IHS EGC.

My decision relative to this proposal is not about the potential value of the course, but rather the process that has been followed.
