

Doctor of Philosophy - Nursing

Plan Description

Individuals who complete the Nursing PhD Program will be prepared to advance nursing science and practice through rigorous research, evidence-based education, and dynamic leadership.

Graduates will demonstrate the following program outcomes:

Provide leadership in the advancement of nursing as a scientific and practice discipline through the conduct of culturally competent scholarship and identification of implications for policy, the discipline, and the profession.

Conduct and communicate original research that generates new knowledge.

Develop, implement and evaluate innovative approaches to teaching and learning.

Course Offerings:

Doctoral courses offered by the School of Nursing are web-based. However, students are required to attend an on-campus orientation prior to the first semester of enrollment. These meeting times and dates are set in advance to allow students adequate time to make appropriate plans. Students are also required to be on campus for their oral comprehensive exams, proposal defense, and final dissertation defense.

Programs of Study:

There are three options in the current Nursing PhD Program:

Nursing Education Track (Post-Master's)

Post-MSN-Nursing Education Accelerated Degree Track

Post-D.N.P. to Ph.D. Track

The UNLV School of Nursing (SON) - Nursing PhD Curriculum Framework outlines the shared required core courses in the Nursing PhD Program.

Plan Admission Requirements

Application deadlines Applications available on the UNLV Graduate College website. Admission into the nursing doctoral program is contingent upon the qualifications of the applicant and the availability of open positions. Students are admitted once a year in the fall. Applicants must have submitted all required materials by the deadline posted on the School of Nursing website. **A one-time, non-refundable deposit of \$500 is required as a seat holding fee. This deposit will be credited towards tuition costs once admissions acceptance has been completed. This applies to any and all applicants to the DNP program regardless of subplan.** All applicants must provide the following: Generally, a minimum grade point average of 3.5 (on a 4.0= A scale) earned in a nursing or health-related master's program of study is required. Students who graduated from accredited competency-based schools are advised to contact the Program Director for additional information. Successful completion within the last 5 years of graduate course work or equivalent in statistics and research with a B or better. Current unencumbered and unrestricted license as a Registered Nurse in at least one state or territory of the US. Applicants must present GRE scores on verbal, **quantitative** and analytic measures. The exam must have been taken within the last five years. Post DNP applicants are exempt from this requirement. Three letters of recommendation are required from individuals who can evaluate the applicant's motivation, academic capability, scholarship potential, and personal integrity for doctoral study in nursing. Evidence of current health and malpractice insurance. Accepted applicants must, prior to enrollment, show proof of completion of the Hepatitis B vaccine series, a titer indicating presumptive immunity, or a statement from a health care provider indicating that vaccination is contraindicated for health reasons and validation of a negative drug screen. Other immunization and health data requirements are identified in the student handbook. Two representative samples of scholarly work (e. g., thesis, demonstration project, publications, etc.). Written statement of personal career, educational and scholarship goals including identification of research **interests**. Statement should include description of how the applicant's research goals align with specific faculty programs of research. Curriculum Vita or resume. Applicants are required to participate in an interview with members of the Admissions Committee, either in person, video conference, or by telephone. Post-D. N. P. to Ph. D. Track applicants must also submit: Evidence of an earned Doctorate in Nursing Practice degree from a program accredited by the Commission on Collegiate Nursing Education (CCNE), the National League for Nursing (NLN) Commission for Nursing Education Accreditation (CNEA), or the Accreditation Commission for Education in Nursing (ACEN) is required. In addition to the required courses below, students must have 17 **units** from an accredited DNP program. Nursing Education or Post-MSN-Nursing Education Accelerated Degree Track applicants must also submit: Earned master's degrees in nursing (MSN) require programs accredited by CCNE, NLN CNEA, or ACEN; persons educated outside **the** United States need to demonstrate proof of equivalent education and advanced degrees. Persons holding a bachelor's degree in nursing and master's degree in a health-related discipline from an accredited institution are eligible for admission but will need to successfully complete graduate level courses in health and public policy and nursing theory. Post-MSN-Nursing Education Accelerated Degree Track applicants must also submit: Upon approval of all the previous requirements, applicants who completed NURS 709, 710, 724, and 733 or equivalent course work during either their masters' or postmasters' education are eligible to apply for the Post-MSN-Nursing Education Degree Track. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements. Students are accepted into a degree program as described in the Graduate Catalog. The faculty and corresponding sub-disciplines and sub-plans within the described programs are subject to **change** at any time.

Plan Requirements

See Subplan Requirements below.

Subplan 1: Nursing Education Track (Post-Master's)

Subplan 2: Post-MSN-Nursing Education Accelerated Degree Track

Subplan 3: Post-D.N.P. to Ph.D. Track

Subplan 1 Requirements: Nursing Education Track (Post-Master's)

Total Credits Required: 62

Course Requirements

Core Courses – Credits: 33

Complete 33 credits by completing all of the following courses:

NURS 770 Knowledge Development in Nursing	3
NURS 771 Theory Development in Nursing	3
NURS 772 The Nurse as Leader	3
NURS 775 Statistical Methods for Nursing Research I: Univariate Methods	3
NURS 776 Statistical Methods for Nursing Research II: Multivariate Methods	3
NURS 779 Writing a Research Grant Application	3
NURS 780 Quantitative Research Methods in Nursing	3
NURS 781 Qualitative Research Methods in Nursing	3
NURS 785 Special Topics in Nursing Research	2-8
NURS 789 Independent Study	3-10
NURS 748 Interdisciplinary Team Science	3

Nursing Education Courses – Credits: 17

Complete 17 credits by completing all of the following courses:

NURS 709 Teaching and Learning in Nursing Education	3
--	---

NURS 710 Course Level Evaluation Strategies for Nurse Educators	3
NURS 724 Developing & Evaluating Curriculum for Nursing Education	4
NURS 733 Nursing Education Practicum I	2
NURS 774 Educational Theory and Philosophy for Nursing	3
NURS 790 Independent Teaching Practicum Seminar	1
NURS 791 Independent Teaching Practicum	1-5

Dissertation – Credits: 12

NURS 797 Dissertation	1-6

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

Complete the minimum credits required.

A grade point average of 3.0 must be maintained in all courses required for the degree; no grade less than B is acceptable for curricular completion of the program.

Upon admission, each student will be assigned to the Ph.D. coordinator as their initial academic advisor who will plan the student's entire program of study. Approved courses will include those taught in other disciplines but must relate to the student's area of research.

After the student has selected a research topic, the student will select an advisor based on research focus and needs. Upon student recommendation, faculty acceptance, and approval from both the Ph.D. Coordinator and the Graduate College, the advisor will be changed.

In consultation with their advisor, the student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Upon completion of all required course work other than dissertation and research seminar, each student must take a written and oral Comprehensive Examination that will assess a doctoral student's readiness to begin the doctoral dissertation. Specifically, the examination will evaluate a student's written and oral articulation of a possible dissertation research focus or problem. Upon successful completion of the comprehensive exam, the student achieves candidacy and may register for dissertation credits and begin dissertation proposal development followed by independent dissertation study.

Students who do not successfully complete the exam will be placed on academic probation.

Failure to successfully complete the exam or meet the requirements of academic probation will result in separation.

Upon successfully completing the comprehensive examination, the student submits a dissertation prospectus to their committee for approval. After approval, the student submits a "Prospectus Approval Form" to the Graduate College. The student's major advisor and dissertation committee are responsible for the student's progression through the dissertation.

Upon completion of the dissertation, the student must pass a final oral examination which involves the successful defense of the dissertation study. All dissertation committee members must be present for this examination and may question the student following presentation of the study. The defense will be scheduled and conducted in accordance with the Graduate College's policies for dissertation completion.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation according to the timeline established by the Graduate College.

The student must submit and successfully defend their dissertation by the posted deadline. The defense must be advertised and is open to the public.

After the dissertation defense, the student must electronically submit a properly formatted pdf copy of their dissertation to the Graduate College for format check. Once the dissertation format has been approved by the Graduate College, the student will submit the approved electronic version to ProQuest.

Deadlines for dissertation defenses, format check submissions, and the final ProQuest submission can be found here.
