

Master of Science - Emergency and Crisis Management

Plan Description

The ECEM program is a professional degree designed to maximize the expertise of experienced professionals from numerous disciplines, levels, and regions, thereby providing the opportunity to both advance individual philosophies and to gain broad exposure to a wide variety of other techniques and methodologies to effectively address natural, intentional, and technical disasters. The degree offers enhanced professional growth for the individual and a contribution to a developing body of knowledge. The program is intended for students interested in the general framework of Emergency Management and Homeland Security; Leadership, management and coordination skills for Emergency Management and Homeland Security; Community preparedness, mitigation, response and recovery from natural and man-made disasters; and Actually participating in exercise planning and execution.

Please note that the ECEM program is a special tuition and fee-based program approved by the Board of Regents. To find the current fee structure, please call (702) 895-0236.

Plan Execution

Students will evaluate, develop, and implement exercises designed to test their ability to apply course content.

Students will be required to complete course work through the University's online educational system.

Students are expected to enroll in a full three-course load each module and finish with the initial cohort.

For more information about your program, including your graduate program handbook and learning outcomes please visit the Degree Directory.
