RE: New MBA Concentration – Health Care Management

Dear Graduate College New Program and Program Revision Committee:

As the Chair of the Department of Health Care Administration and Policy, I wish to express the Faculty's support to help the Lee Business School's MBA Programs introduce Health Care Management concentration. This innovative interdisciplinary collaboration is aligned with the missions, initiatives, and strategic plans of UNLV, the School of Community Health Sciences, and the Department of Health Care Administration and Policy. I am fully supportive of this new MBA concentration because it blends well with current graduate programs in both Schools. We look forward to this collaboration and think it will improve the curriculum of both programs.

Sincerely,

A handwritten signature in black ink that reads "Chris R. Cochran".

Christopher R. Cochran, Ph.D., Chair
Department of Health Care Administration and Policy
