Introduction

Hello \${m://FirstName},

The annual review consists of the following sections:

1. Scholarly and Creative Activities
2. Teaching, Professional Development, and Service
3. Degree Progression

Once you complete the first two sections and continue to the Degree Progression section, you will not be able to make changes to the previous sections. The survey will warn you when you reach this point.

The review generally takes about 10 minutes to complete. If you are not able to finish, you can return to the review at any time using the link found in your email. Your responses will be saved as you complete each field.

To complete the review you will need an updated vita or resume. You will also be asked to list the courses you have completed, and citations for any scholarly and creative activities (e.g., publications, conference presentations) you have completed over the last calendar year.

A response report will be sent to you, your program graduate coordinator, the graduate college, and your advisor. The graduate coordinator may also share the results with other faculty members in your program. This is not an anonymous survey.
